¶ Fratris Baptiſtę Mantuani Carmelitę theologi ad clariſſimū Equitē dnm Lodouicū Gonzalem Hiſpanū diui Jacobi Gallici cōmendatarium digniſſimū: in Robertū Seuerinatem panegyricum Carmen.

SEmideum veteres inſignia facta poetę
Meonijs vſi fidibus grandiq3 cothurno
E tenebris claram in lucem traxere canendo
Propterea magni tumulū miratꝰ Achillis
Pelleo genitore ſatus: dum męnia Troię
Littore ſigeo laceramq3 inuiſeret vrbem.
O fortunatum iuuenem cui carmine dixit
Meonio dici tantoq3 ad ſidera cantu
Contigit extolli: famaq3 repellere mortem.
Sed tamen in ſacros ſors eſt minus ęqua poetas.
Nam dum magna canunt heroum facta: putantur
Uana loqui: quia vulgus iners ꝛ languida corda
Dum ſublime nihil curant ꝛ ſegnia ducunt
Ocia: virtutis duriſſima pectora nunq3
Cominus ꝛ fortes contrectauere lacertos.
Noctua phębeum viſu non ſuſtinet orbem:
Hoc etiam iouis armigero putat eſſe negatum.
Sic genus hoc exangue ſuis quod viribus impar
Autumat: herculeos excędere iudicat auſus.
Cędite degeneres animi: noctemq3 ſubite
Tartaream: ſtygijq3 lacus teterrima luſtra
Lumine qui tremulo claros non cernitis ignes.
Nec quales habeat virtus diſcernitis alas.
Quis lernę Nemeęq3 feram ſaltuſq3 molorchi

Quis domuit ceruam ęripedem? quis abſtulit angues
Vertice de licij montis flammamqꝫ chimerę.
Et quis ſemiferis iuga dicitur hoſpita monſtris
Oppreſſiſſe: fuit labor ⁊ ſolertia tanti.
Ampla quis ex vno confecit marmore tecta
Thraicio fundata ſolo: qua magna perinthus
Ante fuit: priſcum mutauit. heraclea nomen.
Ardua pyramidum quis culmina nubibus ęquat?
Quis tantis epheſum templis? quis turre Canopum
Lucifera? libycas olim quis preſſit harenas
Mole iouis tanti? quis vicit amazona fortem?
Quis lapitas: duroſqꝫ truci leſtrigonas ore?
Alpinum quis ſtrauit iter? quis marmor aceto
Rupit et ęternis canentia ſaxa pruinis?
Hęc facit aſſiduo ſudans in puluere virtus.
Quattuor in magno rerum primordia mundo
Secretis abſtruſa locis ignotaqꝫ regnant:
Scilicet hęc. fatum. virtus. fortuna. deuſqꝫ.
Iura deo maiora manent. cui proxima virtus
Tercia ſors fato. cui ſe fortuna miniſtram
Exhibuit: flãmis virtus durata geluqꝫ
Fortunam fatumqꝫ domat. dare ſola triumphos
Et leuibus vectare rotis: intexere lauros
Frontibus ⁊ viridi raptum de ceſpite gramen
Ipſa poteſt. fuluo lucentes ęre coronas
Signaqꝫ partitur naualibus ardua roſtris.
Et faciles myrtos exanguis pręmia belli.
Hęc monſtrare volens ſua quanta potentia: ſęclis
Plurima pręteritis hominum ſublimia fecit
Pectora ſed noſtro non vſa minoribus ęuo

Uiribus illuſtrem belli paciſq; Robertum

Pręſcia venturi iuſſuq; excita tonantis
Tale duci natura decus largita futuro eſt
Quam bene criſtata recubant ſub caſſide crines
Quam bene ſub torace ſedent mauortia corda.
Non ęrata grauat viridem lorica ſenectam.
Non validam grauis haſta manum: non ilia fulgens

Cum rutilare truces conos adamantaq; ſummo
Uertice vibrantes late diffundere flammas
Aduerſę videre acies trepidare videres

Stare loco neſcire: ducis pręſentia tanti eſt.
Sicut vbi libyę per inhoſpita rura leonem
Iratum videre ferę: ſi fidere curſu
Si tentare fugam nequeunt ante illius ora
Depoſita ceruice iacent: regemq; fatentur.
Nec ſemel aut vno tantum fuit agnita virtus
Iſta loco: procul europam diſcurrit in omnem.

Qua premit aerias gallis in finibus alpes
Hyberno Cynoſura gelu: qua murmurat ęquor

Exercet miteſq; legit de collibus vuas

Facta ducis celebremq; ſonant ora omnia famam.
Quid referam virides annos cum venit in arma
Pene puer: patrui mores ⁊ fortia ſemper
Signa ſequens: teneras prima lanugine malas
Claudere fulgenti galea cum cepit: ⁊ armos
Deliciis rigido poſitis circundare ferro.
Sicut Marmarici ſoboles primęua leonis
Iam pendente iuba curuis vbi fortior ętas

Stare nequit: curſuq; feras ſaltuq; fatigat.
Sic puer vt flagrans picena per oppida fulmen
Tranſiit: ⁊ celeri fregit tot moenia marte.
Non maiora tulit virtutis ſigna futurę
Scipio: cum pauidis tranans pro ciuibus ęquor
Attulit in libycam ſtrages ⁊ funera gentem.
Quid repetam victis antiqua pericula boiis:
Scit Verdon Tanaruſq; furens Tanaroq; ꝓpinquans
Eridanus: necnon inſubris flumina lambri.
Quid cum vix ſecum rapuit ſua ſigna Jacobus
Aufugiens: erat ille tamen non ſegnis: ⁊ artem
Palladiam doctus: ſumptaq; acerrimus haſta.
Non marius Cimbrum maiori clade furentem
Nec marathon fudit maiori turbine perſas
Milciades quando ſubitis congreſſibus hoſtem
Fregit: ⁊ ingentem ſepeliuit ſanguine campum.

Hęc in regna viam pietas: ⁊ ſacra nitenti
Relligio veſtita fide: cultuqȝ frequenti
Dona deo diuiſqȝ omnes congeſta per aras.
Hoc quoqȝ non noſtri tantum docuere priores
Qui Chriſti lauere ſuos in flumine crines:
Verum etiam qui vana ſacris idola profanis:
Et fragiles coluere deos. Poſt cimbrica bella
Barbaricus templum: ſpoliis prędaqȝ recenti
Struxit: ⁊ optato Marius ſacrauit honori.
Bacchus vt eoos victor penetrauit ad indos:
Primitias prędę ſuperis ⁊ magna dicauit
Dona Joui: priſci frondes in templa ferebant.

Primus hic ⁊ ſpolijs aras cumulauit ⁊ auro:
Scipio cui nomen deuicta Numantia fecit
Templa dedit ſuperū patri: Marcellus eidem
Gallorum ducis exuuias. Agrippa ſuperbis
Porticibus: grandiqꝫ deos teſtudine clauſit
Innocuę paci molem rex Flauius altam.
Tullus ab albanis rediens ſaturnia templa
Condidit. at Scaurus menti: poſt arma Camillus
Gallica delubrū famę. Sed maximus omnes
Conſtantinus auos vicit: tot templa per vrbem
Tot templis ſacrauit opes: vaſa aurea: gemmas:
Signa: ſacras veſtes: caſias: ⁊ balſama cultris
Marmoreis inciſa. crocos. ⁊ cinnama ab orbe
Uecta peregrino. Sic te quem longa coronant
Prelia: cui ſummam totiens victoria laudem
Preſtitit: in ſuperos gratū: memoremqꝫ tonantis
Eſſe decet. Sicut veteres iam laudibus ęquas
Militię: ſic te facias pietate priorem.

Hęc rapit ⁊ formam: ⁊ corporis omne decus.
Deturpat nitidos crines: rugaſqꝫ ſeniles/
Inducit: nobis nil niſi triſte ferens.
Candida nōne vides ſurgunt nūc lilia campi:
Surgit in hamatis nunc roſa pulcra rubis.
Quę peritura breui bruma torpente rigeſcunt
Tempus edax celeri ſic pede cuncta vorat.
Nec tibi cōceſſum eſt annoſi more colubri
Annos ⁊ veterem depoſuiſſe cutem.
Nec tibi cornicis: cerui aut ſpacioſa vetuſtas
Eſt data: nec viues tempora neſtoria.
Sed tua vita cito tranſit: ceu lilia campi:
Nec quę preterijt hora redire poteſt.
Ergo frequens diſcas ſophię pulcerrima dona
Ex his poſt cineres candida fama venit.
Singula nā pereunt: vulgus quę ducit opima
Et color: ⁊ facies: forma decore nitens.
Diuitię veſtes: phrygijs innixa columnis
Atria tranſibunt: durat in orbe nihil.
Sola mori ſpernūt muſarum ⁊ dona mineruę
Atqꝫ hijs poſt tumulū gloria maior erit.

Carmen Anacreontis ſenis.

Argentū tornans fabrica vulcane mihi
Non omnē armatum: quid enī cū bellis mihi?
Sed cauū poculū cude: quantū vales maxime.
Inqꝫ eo neqꝫ aſtra. nec plauſtra facias.
Nam quid cū pleiadibus: quid cū boote mihi?
Vites fabrica queſo intus. ⁊ racęmos pariter.
